

Skills Needed for B.E/B.TECH (1- 4th year) :

- ➔ Communication skill
- ➔ Presentation skill
- ➔ Aptitude skill
- ➔ Problem-solving skill
- ➔ Domain skill

Communication skills and presentation skill:

Tip: How early you start that much confidence you will get

- If you are [1st or 2nd year], try to participate in other college events like
 - ➔ paper presentation
 - ➔ project presentation
 - ➔ Hackathons
- If you are [3rd or 4th year], try to participate in companies events like
 - ➔ Hackathons
 - ➔ Codeathon
 - ➔ Tech conference.

Aptitude round

Learning: Quantitative, verbal, logical reasoning, programming MCQ

YouTube channel	Learning resources	Practise
Career Ride	https://youtube.com/playlist?list=PLpyc33gOcbVA4qXMoQ5vmhefTruk5t9lt&si=qKakGdzdOTuG02Il	https://www.indiabix.com/

Problem-solving skill:

Tip: Companies judge a candidate by DSA+ problem-solving skills

Programming language : (Companies won't ask multiple languages you need to master, you need only one OOPS language that's enough to crack)

Pick one language:

- ➔ C++
- ➔ Java
- ➔ Python
- ➔ JavaScript

Resources to learn a language :

Language	YouTube channel	Link
C++	FreecodeCamp	https://youtu.be/vLnPwxZdW4Y?si=nkEqDeOOi-zKG-m
Java	Telusco	https://youtu.be/BGTx91t8q50?si=HLzBo7xLIVenbDBs
Python	Programming with Mosh	https://youtu.be/K5KVEU3aacQ?si=fozt3XfTU7AhRdRu
Javascript	Telusco	https://youtu.be/IC5vBKc21X8?si=M5nyL82qmtVqInbS

Data Structures and Algorithm:

Tip 1 : Start DSA with one language do either with C++ or java

Tip 2 : Go with proper structure or else you will lose your consistency and motivation

RoadMap for DSA : <https://whimsical.com/100-days-of-dsa-JjsnhMcKViecPVFfFAZx3g>

C++ + DSA :

Problem solving:

Platforms: (Stick with one platform that you are comfortable with, don't jump to everything.)

- ➔ Hacker Rank (Beginner)
- ➔ Geeks for Geeks(Intermediate)
- ➔ Leet code (Intermediate)

Coding sheet: (Don't solve the problem randomly, go with one particular sheet, then only you will get to know the coding patterns in DSA)

Link for coding sheet: <https://takeuforward.org/strivers-a2z-dsa-course/strivers-a2z-dsa-course-sheet-2/>

Contest : (You will get interview-style problems and time-bound like coding rounds in Companies, once you will able to solve medium-level problems in Leetcode contest, you will ready to crack more than 20LPA + companies.)

- ➔ Leetcode weekly contest and Biweekly contest
- ➔ Geeks for Geeks weekly contest
- ➔ CodeChef and Codeforces

Domain skills : (Don't focus on multiple Domains, pick one and master it)

- ➔ App development
 - Flutter development
 - React Native App development
 - Android App development
- ➔ Web development
 - MERN stack development
 - MEAN stack development
 - Java full-stack development
- ➔ Machine Learning and AI

Project:

- ➔ **Do at least 3 projects for your resume in the domain you have chosen above**
- ➔ **Try to integrate with automation and AI (Added advantage)**
- ➔ **Try to post it on LinkedIn and GitHub, and make sure it will be a shareable link**

CS Fundamentals:

- ➔ **DBMS**
- ➔ **OS**
- ➔ **CN**
- ➔ **OOPS**

Internships :

- ➔ **Try to get it on 2nd or 3rd year**
- ➔ **Try to reach out the recruiter's on linked in**
- ➔ **Try to complete 2 internships before placement**
